MANHOOD

IN THE

YOUNG AND RISING GENERATION.

The vigorous active powers of life are strong but in a few years how often the pallid hue, the lack-lustre eye and emaciated form, and the impossibility of application or mental effort, tell without benefit of warnings. It soon becomes evident to the observer that some depressing influence is checking the development of the body. Consumption is talked of, and perhaps the youth is removed from school and sent into the country. This is one of the worst movements. Removed from ordinary diversions of the world, the gnawing sense of the disease preying upon the vitals, the powers of the body, too much enfeebled to give zest to health-ful and rural exercise, the sight are turned inwardly upon the nerves.

If the patient be a female the approach of the menses is looked for with anxiety as the first symptom in which nature tries to throw off a wasting power. If the blood circulates and visits the cheek with the bloom of health. Also increase of appetite and the powers are invigorated, and the whole economy is changed. The beautiful and wonderful system in which body and mind undergo so fascinating a change from child to woman, a foolscap for in vain. The parents hear bloom in anxiety, and fancies the grave that waiting for the victim.

We, the undersigned, having enjoyed for many years an intimate personal acquaintance with Dr. Dean, of Jersey Shore, with great confidence recommend his Asthma Remedy, which we have used in our own families with great success.

The principal ingredients for which this salve is recommended, are: *Elderflowers, Rhus aromatica, Elder, Spearmint, Old Roses, Salt Rheum, Spotted Alder, Sweet Gum, Balsam, Pimples, Tremulous, Sore Eyes, Brown's Ills, Sore Throat, Swelling, Burns, Corns, Ulcers, Inverted Nails, Toothache, Earache, Sore Nipples, Baldness, Scaldhead, Scurvy, Rash, Scald Head, Tetter, Tingling, Chapped Hands, Sea Bathing, Bruises, Croup, Cracked Lips,* and *Sore Eyes in Children.*

It never fails to cure Rheumatism if properly applied. It is in use with the head three times a day. In several cases it has cured palsies. Rubs. For *Piles* it has been discovered by a stranger. For *Corns, Bunions* and Inverted Nails, it has been known for years to cure. For *Scalds* and *Burns* it is superior to anything known. For *Pimples* this acts like a charm. For *Burns* and *Scalds*, apply the Salve at once and it gives immediate relief. For *Old Sores*, apply once a day.

THE HORSES AND CATTLE.—For Sores in Bruises on Horses or Cattle this Salve is invaluable, and has astonishing effect in curing scratches on horses. This Salve has worked its own way into notoriety, and is a safe and sure remedy for all the above ailments.

We, the undersigned, have been acquainted with Miss Sawyer for many years, and believe her to be a Christian lady, and a truthful woman, and having used her salve in our own family, it gives us great pleasure in saying it is the best general medicine we have used:

Rev. E. F. Sawyer, Rev. W. Hamilton, Rev. W. Hamilton, Rev. Wm. Hamilton, Miss Alice Sawyer, Miss Alice Sawyer, Mrs. Wm. Hamilton and wife, Mrs. Wm. Hamilton and wife, Mrs. Wm. Hamilton and wife

Whig & Courier.

JOHN H. LYNDE, - PROPRIETOR.

SATURDAY, JANUARY 27, 1872.

A DEMOCRAT'S OPINION OF GENERAL GRANT.

The abuse and ridicule which weak-minded editors and politicians heap upon President Grant has had the effect of decidedly strengthening him in the estimation of the people, as it did President Lincoln. Mr. Roosevelt, a prominent Democratic member of Congress, who was soundly abused by the party organs for his prompt and vigorous denunciation of the Tammany Ring, and who is now the editor of the Citizen, the ablest Democratic paper of New York, has recently read his political friends a lecture upon the subject. Mr. Roosevelt is exceedingly anxious that his party should succeed in the coming Presidential campaign, and to that end has written in the last number of his paper a long article entitled "Grant's Chances," in which in the gentlest way possible he gives some sensible suggestions to his friends.

Mr. Roosevelt says: "It is the mistaken idea of some persons to belittle Gen'l Grant's ability—to run down his qualifications, and to underrate his mental acquirements." Instead of this, Mr. Roosevelt thinks that "President Grant is one of the shrewdest managers of the day, not only as a leader in the war to which he first gave a favorable turn, but as a manipulator in politics he has shown remarkable skill. The rebels continually took the same view that the Democrats are taking now; and down to the end the Union General as an ignoramus every time he won a victory over them, and the more effectually he crushed their armies the more clearly they proved that he was utterly incompetent as a military commander, and entirely unequal to the task which he had assumed."

Mr. Roosevelt is safe free to confess "that the President uses his power with a wisdom and discretion which are sure to effect the end in view," and that during the last three years "his political strength has increased." In an analysis of the President's character he says:—"People who do not know President Grant intimately, describe him as a sphynx, a silent, unsocial person. Nothing could be further from the truth, and here is where a series of blunders commences. Surprising as the assertion may appear, President Grant is eminently social; he is jovial, merry, talkative, full of fun and geniality, and a right pleasant companion; but the wild stag in the midst of the merriest conversation if he finds that his interlocutor has a purpose under his pleasantry, and if he suspects that some object is to be obtained he assumes his air of stolidity at once. Before any brilliant gentleman belittles the President for this habit, let him think how much annoyance it has saved him. He is timid by nature, and being totally unaccustomed to reserve, he would have had difficulty in maintaining the dignity of his position without it. It is the result of his plan and he has adopted it."

These are pussax words to hear from a political adversary as strong and ardent as the editor of The Citizen, and make one feel as if the political millennium were almost at hand. Mr. Roosevelt gives as a reason for his course—that it is "one of the greatest follies to moderate an adversary," and that the "contest of the Republican party will never be brought about by contention on the writings of the candidate."

THE DEMOCRATS, SECRETARY BOUTWELL AND THE SYNDICATE. The Washington special of the Boston Advertiser says it is not certain that the Democratic members of the Committee of Ways and Means will make a minority report upon Secretary Boutwell's transactions with the syndicate. Messrs. Beck and Kerr, in common with their present during the investigation, say that they are willing, so far as they are concerned, to submit their views upon the position to the House in remarks upon the decision reported by the majority of the Committee yesterday, but in deference to Mr. Brooks, Beck is sociable, who has but lately returned to the city, they prefer to wait until he has had an opportunity to examine the evidence and the papers in the case and then if he thinks a report is necessary will be in readiness to report. The Democrats upon the committee say that they do not desire to make any factious opposition to the course of Secretary Boutwell in funding the debt, nor do they propose to manufacture any party capital out of the transaction. They contend, however, that he has failed to conform to the letter of the law in the redemption of the old bonds with the proceeds of the new, though they do not doubt that the deficiency was created by the act itself and that it would have been impossible. The fault of the Secretary's action they think, therefore, they are willing to forgive in the appreciable requirements of the statute. They charge, however, that he was wrong in permitting the Syndicate to take the three months' interest on the bonds when they took them from the Government, and also had the opportunity to get three months' interest from the money which they received from their customers for the bonds before they could be delivered. These two points comprise the chief objection of the Democratic members to the course of the Secretary, but their action upon the case has not been determined. There is no doubt of the adoption by the House of the resolution from the Committee of Ways and Means.

The contemptible anonymous insinuations concerning this paper, which the Commercial has permitted to appear in its columns, are entirely unworthy of notice; but we desire to inform our contemporary that whenever it has the courage to prefer a tangible charge or the sense of propriety which would compel its correspondents to deal in something more direct than innuendo, we will meet each or all, with a promptness and alacrity which we promise shall leave them nothing to desire. While the Commercial dodges behind the slanderous scribblings from within or without its office, and the scribblers themselves skulk from responsibility, neither are worth attention.

It will be noticed in our City Report that at the meeting of the Common Council last evening, the petition of the Bangor Water Company was taken up and referred to a joint special committee, Messrs. Humphrey, Tobin and Adams being appointed to join Aldermen Crosby and Strickland who were previously appointed.

Perley, of the Boston Journal, says that Senator Morrill was listened to with close attention, Thursday, and his argument is regarded as among the ablest, both in a constitutional and parliamentary point of view, yet delivered on the question of amnesty. The senator from Texas indulged in the backwoods style of oratory, to the amusement of all who heard him; but he gave expression to a deal of common sense truth, in his quaint way.

A prominent official of the Western Union Telegraph Company, now in Washington, says there is not the slightest prospect of the success of the Hubbard or any other postal telegraph scheme at this session of Congress.

SUPERVISION OF SCHOOLS. There was a public hearing before the Committee on Education, at Augusta, Wednesday evening, to give opportunity to those favoring a repeal of the Supervisory law to state their grievances. The opponents to the system did not appear in force.

Mr. Winslow, of Falmouth, entered his protest against Country supervision, declaring it a failure in his locality.

Mr. Hunt, of Robinston, declared all methods of school supervision a failure.

Mr. Holden, of Portland, referred to the results of supervision in his section.

Mr. Norcross, of Union, spoke strongly in favor of the supervisory system, and gave an example of an old-style teacher's operations in the school room, who was opposed to modern methods of conducting recitations. The district was dissatisfied, and he was given leave to resign. Cause—The district had previously had a teacher from the Normal School.

Dr. E. T. True, Successor of Oxford county, had found all parties ready to work and operate with him. They have good schools in his county, even in the back districts. Have five academies in the county, and last fall had twenty-six academies and high schools in operation, giving instruction to 1,600 pupils.

His experience is that opposition has come from those who have never gone into the school room. Has converted more men during the year than any preacher in the State. Has only to take them into the school room where modern and improved methods are in operation, to convert them very quick.

Has not visited a school this year where corporal punishment was allowed, and all but two of them showed good order. There are, of course, imperfections. The office of County Supervisor is a hard one to fill, for too much is expected.

Mr. Morris, of Portland, voted always in favor of the system, but has had fears that the salary paid has been too small. It will not obtain the right kind of men. Asks for the opinion of others.

Mr. Talley, of Bowdinham, has found supervision to be a failure. The teachers in his town think the labors of the Supervisor of no account. Thinks their work can best be performed by the school committees. They know better what is needed than a stranger does. Three of the four Representatives from this county will vote to do away with the supervisory system.

The reason alleged by some why the friends of repeal of the law were absent, was that they proposed to reserve their thunder till they could make it effectual.

The hearing was adjourned till next Friday evening, at 7 o'clock.

Mr. Lynch's Committee on Expenditures of the Treasury Department on Thursday commenced the examination of the books and accounts of the officers of the United States Treasurer. The investigation will be carried on from day to day until all the books have been examined. Not a single item has yet been discovered, either by the Investigating Committee appointed by Secretary Boutwell or by the House Committee, to show the slightest negligence or dereliction of duty on the part of United States Treasurer Spinner.

HE OF THE "AVENGING SWORD." The Lewiston Journal says the member from Whitefield introduced an order Tuesday, directing the Superintendent of Schools to summon the County Supervisors, gorgeously clad in red tape, and let power them to hold a county to statutes in the month of June, when young hunters should be taught, sent free, in the science of shooting crows which prey upon the cornfields, for which service they shall be paid the same per diem pay and expenses that are now allowed them for teaching the young idea how to shoo down orthography in unspelling four words out of seven. Mr. Porter moved to print the order. Gen. Perry moved to amend by providing that the "shooting match" should be held in Whitefield. Mr. Carleton, Jr., moved to withdraw the order, but Mr. Porter objected. Mr. Titcomb moved to refer to the Committee on theirs same House call. Carried. The above order shows that education is sadly needed in some quarters.

HIS VICE PRESIDENCY. The Chicago Tribune contains the following editorial paragraph in its issue of the 16th inst:—

"The Pennsylvanians are manifesting a decided preference for the renomination of Mr. Colfax for Vice President, and their newspapers indicate, with some degree of triumph, that this is the way to head off Speaker Blaine, whose nomination they oppose since he manifested a first and independent spirit in packing opposing Committees and refused to pack the Ways and Means in the interest of High Protection. Mr. Colfax is not a candidate.

We are inclined to think that the Pennsylvanians are thrashing themselves into needless fury on this subject. If they would just say publicly they would find that their votes would not be solicited for Speaker Blaine's nomination. The Speaker's personal friends are and have been, well advised that he does not regard himself as a candidate for the Presidency, and would not have his name presented to the National Convention. It is equally well known that the Speaker has, on all suitable occasions, freely expressed himself in favor of Mr. Colfax's renomination."

The House Post Office Committee, Thursday, examined Mr. Harris, lately managing editor of the Washington Patriot, and learned from him that the article charging the Postmaster General with improper and illegal conduct in letting mail routes was written by General J. C. McKibbon, formerly member of Congress from California, and subsequently bidder or contractor. The committee will next examine General McKibbon, and give him an opportunity to prove his charges.

When the present School Commissioner of Georgia, Gen. Lewis, assumed the duties of his office in 1870, he found in that State only 719 white and 97 colored schools with 34,338 pupils in the former and 3,208 in the latter. He now reports 1,832 white schools, with 58,502 pupils, and 221 colored schools with 11,448 pupils. And yet, despite this evidence of efficiency, the hot-headed and ignorant partisans who rule in the Legislature of that State passed a resolution calling on General Lewis to resign, because he was a stranger in the State, and not in sympathy with its people." Subsequently a gleam of sense having penetrated their blind-bound prejudices, the vote was reconsidered, and the resolution voted down. Georgia would be the better for a great many more such "strangers."

POLITICAL AND PERSONAL

It is reported in New York that Carl Schurz is confident that Grant will not be renominated, but if he is, he will bolt from the party.

Of 113 witnesses examined by the Congressional Retrenchment Committee in New York, only 13 have been Government officers.

Col. G. E. Leonard, of the Staff of Governor Warmouth, had an interview with the President on Friday, in relation to affairs in New Orleans.

Hon Bradbury of Portland, Maine, and Ossian Ray of Lancaster, N. H., were admitted to the bar of the U. S. Supreme Court, Thursday.

A New York dispatch says it is reported that a project to sell part of Texas to the Federal Government for an Indian reservation, will be introduced in the House on Monday under the title of a cession of a plot of land as large as New York State, about one-half of which comprises Staked Plains, at the rate of fifty cents an acre. The "Staked" are commonly known as the "Panola."

The Senate, Fire, and Washington Insurance Companies of Georgetown, D. C., suspended payment on Saturday.

LATEST NEWS IN BRIEF.

Six burglars escaped from jail at Cadiz, Ohio Thursday night.

Alsanger's Pork Packing establishment at Philadelphia was burned Thursday. Loss $200,000.

A colored man attempting to get on a 7th avenue car in New York city on Friday, was run over and instantly killed.

The New York Woman's Suffrage Association met Thursday night, and was addressed by Mrs. Blake, Jennie Collins and Mrs. Hallock. There was a fair attendance.

An Appeal to Reason

Health would be much more carefully guarded than it is at present, and the average of human life lengthened by many years, if common sense, and the light of experience were accepted by the universal public as their medical monitor and guide. The true philosophy of health is simple. It consists in refraining from indulgences and imprudences which impair the vital forces, and in supplying any deficiency of vital power and constitutional vigor that may exist, by invigorating and alterative treatment. To reform and regulate a feeble system, and to prevent a more vigorous one from yielding to unhealthy and debilitating influences, Hostetter's Stomach Bitters is unquestionably the most potent of all vegetable purifiers. As a stimulant it is the purest ever administered in medical practice; as a tonic and stomachic, the most infallible; as an anti-bilious agent, the safest and surest, and as an indirect and regulating medicine mild and painless, yet irresistible. It is a protection against disease of every kind, and all seasons, and is particularly efficacious as a means of forearming the system against the ailments generated by a raw, damp, unsettled atmosphere. Hence its great value as a winter tonic and invigorant. No one predisposed to indigestion, biliousness, constipation, rheumatism or nervous headache, should ever be without the Vital Elixir. As a certain class of country dealers are very anxious to dose their customers with "liquid bitters," of a worthless or pernicious character, which they represent to be equal or superior to the great national tonic, the public is hereby forewarned against their "tricks of trade."

O. S. HOWARD'S Improved PISTON HEAD.

Patented Nov. 7, 1871.

Being convinced by an experience of twenty years as a builder and engineer of Steam engines, that the present method of self acting packing were deficient in many respects, and having directed my attention to the subject, I now offer to the public as the result of my experiments, a SELF SETTING PACKING RING, in a solid cored head, of great simplicity, and working freely in the cylinder, and performing its work in an efficient manner.

To it I confidently call the attention of practical engineers, as superior to any now in use, as the advanced certificates will show.

OSGAS S. HOWARD, Patentee.

Bangor, December, 1871.

BREWER, Nov. 21, 1871.

Mr. O. S. HOWARD, Bangor,

DEAR SIR:—One year ago last summer your new Piston Head Improvement was put into a steam cylinder in Palmer & Johnson's mills, running under my charge. I am pleased to say that it has given entire satisfaction, now driving the machine to do the same work with less than half the amount of steam required with the old style of Piston Head. In my opinion your improvement as it is now manufactured is superior to any other in use. In the manner in which the packing adjusts itself to the work of the engine and to the pressure of steam upon the Piston Head, it thereby saves a great amount of power that is lost by friction and leakage with the old style of Head.

It will be found superior to others where a light Piston is desirable, weighing not more than half as much as the average weight of others of the same size, yet made of sufficient strength for all practical purposes.

It also contains an excellent arrangement by which it can be centered, keeping the piston rod in the centre of the packing boxes, another very important feature, the trouble and expense of boring the cylinder and inserting the rod which have to endure for a horizontal engine where there is a great wear of the cylinder due to the gravity of the Piston.

Yours respectfully,
GEO. E. CAY.

OFFICE OF THE
Bangor & Piscataquis Slate Company,
BROWNVILLE, Dec. 6, 1871.

Mr. O. S. HOWARD.

DEAR SIR:—We have now used your Patent Piston Head in one of our engines for eight months. It is working admirably. We are so well pleased with it that we shall improve the first opportunity of putting it into another engine. It packs itself perfectly to the cylinder at all times, is always tight and runs easily. I consider it the best thing that I have ever seen for the purpose.

Respectfully Yours,
WILLIAM SEBA BROWN,
Agent B. & P. Slate Co.

ELLSWORTH, Nov. 26, 1871.

Mr. O. S. HOWARD.

SIR:—Your Patent Piston Head, applied to our cylinder some time since, is a great improvement over the old kind. It wastes no steam and is constantly doing work in its operations, if kept in order, consequently requires no extra fuel to run the power. Our engineer thinks we can do as much work with fifty lbs. steam on this head, as we did with sixty on the old.

HOPKINS, McDONALD & CO.

BELFAST, Dec. 6th, 1871.

Mr. O. S. HOWARD.

We have been running one of your twenty inch Piston Heads for the past two years, and find it superior to any we ever used. We have been in the habit of carrying eighty pounds of steam with the old style Rings and now can do the same labor with your Head with 60lbs. steam, as it is self adjusting and works easier, and is much lighter than the old style of Heads which makes it less liable to wear the cylinder out of round.

Yours respectfully,
E. L. SIMPSON,
EBEN WHEELDEN, 3rd.
BANGOR, March 1, 1871.

Mr. O. S. HOWARD,

DEAR SIR:—Have been running one of your Patent Piston Heads in my mill at Passadumkeag, and in my opinion it uses steam more economically and gives a greater amount of power than any other I have ever used.

Yours Truly,
HIRAM PEABODY, Machinist.

I coincide in the above statement.

S. R. YEATON,
LINCOLN, Dec. 11, 1871.

Mr. O. S. Howard, Bangor:

DEAR SIR:—Having an experience of 32 years with steam engines, and having used several kinds of piston heads, we take pleasure in recommending your Patent Piston Head as being perfect in form, and using steam to a great advantage than any other that we have ever used, and thereby gaining power.

Yours Respectfully,
WM. PLAISTED & SON.

BANGOR, Dec. 16, 1871.

Mr. O. S. HOWARD, Bangor, Me.

DEAR SIR:—I have been running for the last two years, in the planing mill on the Point Wharf in this city, owned by Mr. Pearson, Hall & Co., two engines in which was used the ordinary steam packing for the first yr r. The first of the present year I had your new invention of the Skeleton Head Steam and Packing put into my 120 cylinder, and the result has been that it would drive with the same pressure of steam 20 planers, or more, I could run before the change was made.

KNOWLES GORDON.

WINS, Me., Dec. 9, 1871.

Mr. O. S. HOWARD, Bangor.

DEAR SIR:—We put into our double steam engine, driving our tannery here, two of your Patent Piston Heads, and which have been applied to at least eight horse power to their capacity, and have put into the same engine here, and also one into our steam saw mill at Medway, and they have the same ratio of increase of power.

We are well pleased with them, as to have them put into our new double steam engine which is to drive our new tannery at Medway.

Yours truly,
G. M. MOOR,
Agent for H. Poor & Son's Tannery, Wins.
JAMES RICE, Engineer.

These Heads are now being manufactured at the HINCKLEY & EGERY IRON WORKS, and applied to Engines, both new and old, under the direction of the Patentee.

FROM AUGUSTA.

EASTERN MAINE R.R. BONDS.

AUGUSTA, Jan. 26, 1872.

The Committee on Railroads to-day unanimously decided to report bills for the issue of bonds to the Eastport & Calais, and European & North American Railroads, or in other words, the Committee voted to give the Down East petitioners all they asked for.

WHERE WAS THE GREAT AME N CRIMINAL SHOOTER?

This evening there is a hearing before the Committee on Education, relative to the abolition of County Supervisors. The meeting was held at the request of those favoring the abolition of the office, but when called for none dared respond. Certainly they are kept steadily. Superintendent Johnson and others of the Board of Education, made forcible and clear statements of the cost and workings of the present system, showing that the cost bears no comparison with the advantages of the system, and that only by continuing and elevating the standard of supervision can we hope for a high standard of excellence in our schools.

Lect then said, "I've got a man who can put his hand on Boutwell's shoulder." Lect's evidence damning. His deposition was read. The witness subsequently learned that Porter had his headquarters at Lindsay's. The witness heard G. B. Madison and James B. Taylor say that Grinnell could do nothing in the general order business as he had been bread to give it to Lect, Porter & Lindsay who afterward sub let the business. Mr. Bixby also informed of the witness that he had paid Porter for the privilege, and offered to show him the checks.

FROM WASHINGTON.

THE RACE TAPERS.

WASHINGTON, Jan. 26. The Committee of Ways and Means to-day, continued the hearing of persons interested in the race [illegible] Abram F. Talmadge of New York, said [illegible] although the reduction of the present [illegible] would benefit his trade yet he objected [illegible] to have five years notice before the duties [illegible] would be as cheap as if they were now removed. The consumption [illegible] is not diminished by the present duties. Several other [illegible] Howard of Georgia, spoke of [illegible] the plantations now unused [illegible] want of capital. If this branch of industry [illegible] employment to 50,000 laborers will be [illegible] the most ignorant of all negroes.

TO LEVELER INTERESTS.

The Ways and Means Committee heard the Leather Delegation to-day, representing [illegible] Boston, Lynn, Massachusetts, New York, New Jersey, Pennsylvania, Delaware and Maryland. Various [illegible] in those States [illegible] the manufacturers of leather, goat and [illegible] skins, and [illegible] the abolition or reduction of the present duty on leather. The manufacturers of leather, in memorial to the Committee, say their industry amounts to the production of over $200,000,000 a year, giving employment to 50,000 operatives. In addition to their goods [illegible] the market they pay [illegible] $10 to $17 for [illegible] and $21 in Ohio and New Hampshire, which would each lose [illegible] It was no new matter for the States to lose members. At one time New York had 40 members, Virginia 23 and Massachusetts 20. The Committee, after mature deliberation, had come to the conclusion that it would be best that the number of the members of the House should remain at the present figure.

A discussion ensued in which Messrs. Sherman, Edmunds, Frelinghuysen and others participated, and the bill was finally made a special order for Monday, the vote to be taken at 1 o'clock.

Mr. Morton then again called up the resolution for a final adjournment on the 20th of May.

Mr. Sumner opposed it and argued against any adjournment until the necessary laws were passed for the protection of the colored people.

Mr. Trumbull's amendment providing that Congress do not adjourn without repealing the duty on coal, was rejected, yeas 14, nays 29.

The resolution, unamended, was finally passed, 36 to 14, Messrs. Sherman, Sumner, Sprague, Schurz and Tipton being the only Republicans who voted against it.

Mr. Ramsey moved that when the Senate adjourn it be until Monday. Adopted.

At 5.25 the Senate went into executive session and soon after adjourned.

HOUSE.

Several petitions were presented for the repeal of the tax on savings banks.

A large number of pension bills were passed.

A pension bill for the relief of Adam Correll, of Ohio, was recommitted, he being denounced by Mr. Cross and of Kentucky, as a robber, an [illegible] and thief.

The House went into Committee of the Whole on the Legislative bill. A proviso was added to [illegible] appropriating $400,000 to pay the judgments of the Court of Claims, directing that no part of the amount be paid on any judgment rendered in favor of George Chorpening.

On motion of Mr. Maynard, of Tennessee the last clause of the general appropriation bill, which directs that no claim shall be considered or paid by the Government unless filed within seven years from the time the claim occurred, was struck out.

Mr. Garfield of Ohio, offered an amendment looking to restriction on public printing and said that last year the quantity of printing done at the public printing office would, if put in volumes, have made a library of 120,000 volumes of 500 pages each. He particularly condemned the printing of Clarence King's Geological Explorations of the 40th Parallel, five volumes of which are yet to come, with expensive engravings, at a cost of at least $25 per volume. Total cost of the work, at least $200,000.

Messrs. Sargent, of Cal., and Dawes, of Mass., favored the amendment and it was agreed to, and the bill laid aside to be reported to the House.

The legal appropriation was about: $17,000,000; and the following heads:—Pay, mileage and expenses of the Senate, $363,000; pay, mileage and expenses of the House, $1,400,000; Capitol police, $30,000; public printing, $2,067,000; Library of Congress, $68,000; Executive $52,000; Dept of State, [illegible]; Mexican, Spanish and British Commissions, $64,000; Treas. Dep't, $2,871,000; for an independent Treas'y, $200,000; collection of int. rev., &c., $52,000; Mint and Assay offices, $631,000; Territories, $150,000; Interior Dep't, $408,000; Dep't Agriculture, $164,000; Bureau Education, $25,000; P. O. Dep't, salaries, &c., $112,000; War dep., $123,000; courts $375,000 Court of Claims, $418,000; Dep't of Justice, $127,000.

POLITICAL.

Gladstone and Disraeli have sent circulars to their supporters in Parliament, begging them to be present on the 6th proximo, as important business, the election of a Speaker, will demand their attention.

Earl Granville refused to see a deputation of Republicans who wished to urge the British government to use its influence to procure the substitution of a civil for a military court in the trial of the Paris communists.

ACCIDENT.

Five persons were accidentally drowned in the Blackwood colliery yesterday.

FRANCE.

GERMAN EVACUATION—NAPOLEON'S OPPOSITION.

London, Jan. 25. (Special to N. Y. Herald.) M. Thiers is endeavoring to secure the complete evacuation of France by the German troops. Prince Bismark has given his consent to the withdrawal of the troops on the condition that three milliards of francs he paid earlier than previously agreed upon. The squeamishness stumbles the tobacco monopoly project.

During the recent crisis Thiers said to Gen. Cissey that if Napoleon had 50,000,000 francs he would be in power in fifteen days.

VICTOR PLACE SENTENCED

Paris, Jan. 25. The Court of Appeals has sentenced Victor Place, late Consul-General at New York, to two years imprisonment and a fine of 2000 francs for frauds on the Government in the purchase of arms in America.

THE BONAPARTIST AGENTS

are very active in the army and are distributing pamphlets urging the restoration of the Empire as the ending of all the woes of France. Copies were found in the barracks and seized by the police.

A new national federation on the Communist basis is organizing in Paris.

A protest against the pending education bill, signed by 60 Bishops has been sent to the Assembly.

All the places of business will be closed on the 28th inst., the anniversary of the capitulation of Paris.

SPAIN.

HOSTILE DOWN.

London, Jan. 25. In the Spanish Cortes, D'az Quintero said that it was quite time to cede Cuba to the United States. He was howled down by the whole House.

STORMY SCENE IN THE CORTES.

Madrid, Jan. 26. A stormy scene followed the reading of the decree of dissolution in the Cortes. The House seemed to be taken by surprise and the members were unable to conceal their indignation. Passionate speeches were made which were answered with derisive cries by a few supporters of the Ministry. One Deputy exclaimed: "The time has come for barricades!" The greatest uproar and confusion followed, amid which the sitting was declared at an end. It appears that the King finally refused to accept the resignation of the Ministry tendered by Sagasta, and a decree dissolving the Cortes was issued in consequence. The people generally sympathize with the Deputies and demand the retirement of the present Government. The King is urged to accept their resignations and immediately form a new Cabinet. The agitation is very great in this city. Disturbances are feared and troops are under arms.

MEXICO

CITY OF MEXICO, Dec. 30,
via Havana, Jan. 18.

Military operations are inactive. There has been no successes since the fall of Oxaca, which is not considered a great advantage.

Porferio Diaz failed to embark at Puerto Angell; and now menaces the State of Vera Cruz. There is no hopes of early peace.

The revolutionists in the North number 6000, scattered over several States. Gen. Neri is between Zacatecas and Durango with 4000 or 5000.

Gen. Corra has sent forces from Guadalaxara to unite with the reserves in Zacatecas. If Gen. Neri is defeated Zacatecas will fall. San Luis Potosi becomes the next point of interest. Gen. Rocha has arrived at the Capital.

Capt. Antonio Ecenia, formerly a Garibaldist, and at one time serving in the U. S. army, is dead.

—Good grit—sand on the sidewalks.

—A calm, clear, crisp day, yesterday.

—To-morrow is Septuagesima Sunday.

—A large number of the eastern members of the Legislature came over on the Maine Central train last evening.

—Waterville has voted to exempt from taxation for ten years any new enterprises for manufactures of cotton or woolen goods.

—In Dexter, bark sells for $6.75, and the best dry hard wood can be obtained for $4.00 per cord.

—Potatoes are selling in Dexter at 35@40 cents per bushel. The Gazette says that one firm purchased nearly a thousand bushels one day this week.

—For valuable information concerning postal matters, arrival and departure of the mails, domestic and foreign postage, money orders, registry, etc., see fourth page.

RECOVERING. We are pleased to learn that Hon. E. G. Rawson, who has been suffering severely from a dangerous attack of erysipelas for a few weeks past, is now fast regaining his health.

—The Press says there is a rumor that the Portland, Saco & Portsmouth and Maine Central Railroad companies will jointly take possession of a depot site on Back Bay in Portland.

—The favorite English opera bouffe, "The Doctor of Alcantara," is to be given in Music Hall for the benefit of the Jamesen Guards, on February 6th, with the same cast as in the previous presentation.

A FINE ANIMAL. We noticed yesterday a very handsome steer, one of a pair raised by Charles Shaw, Esq., of Dexter, which is to be slaughtered for Messrs. Kidder & Rice, Norombega Market. The animal weighs 2,360 lbs. and is one of the finest looking animals ever driven through our streets.

—A farmer from the vicinity of Providence, R. I., went through here last week to Houlton, and returned Thursday night over the E. & N. A. Railway with one hundred nice large sheep which he purchased there to place on his farm. He left this city with them yesterday morning, on the Maine Central road.

—Shaw's Quintette Club, of Portland, were at the Bangor House Thursday evening, on their way to Calais. They delighted the patrons of that excellent hotel by an impromptu concert, which was highly enjoyed by all fortunate enough to enjoy it. They were to give a concert at Calais last evening.

CONSIDERABLE SQUASH. Messrs. Stone & Jones rejoice in the possession of a mammoth squash weighing ninety-three pounds. It weighed, when first taken from the field, one hundred and three pounds, and was raised in Dexter, by a man who doesn't know much about the cultivation of squashes—perhaps.

PATENTS. Issued to Maine inventors, for the week ending Jan. 23d, 1872, and each bearing that date. Reported for the Whig & Courier by Wm. P. Searey, Solicitor of Patents, Schwartz Block, West Market Square, Bangor.

No 122,058—C. E. Morrill, Dearing, Machine for Stitching Shoe Bindings.

No 122,007—James Robinson, Carmel, Feed Rack.

No. 123,016—Barzilla Harrington, China, Material for Filling Mattresses.

No. 123045—Lyman Pettigrew, Gardiner, Writing Tablet.

Whole number of Patents issued for the week 152, together with 7 Re-issues, 7 Extensions, 17 Designs, and 4 Trade-marks.

"KNICK-TIE SOCIABLE." The necktie sociable in the First Parish vestry last evening was a pleasant occasion, largely attended and very enjoyable. The spacious vestry and ante-rooms were filled with people all in their happiest mood, and the necktie portion of the affair furnished a fund of infinite merriment. An museum filled with some of the most wonderful curiosities extant, was one of the attractions and was largely patronized, the large "picture" in the southwest corner having an admiring crowd about it nearly all the evening. An excellent supper was provided in an ante-room, and altogether the sociable was a success in every particular.

BANGOR CADETS. We had the pleasure of witnessing yesterday a drill of the Bangor Cadets, the junior military company recently organized here, and were surprised by the proficiency they have obtained. In company drill and the manual of arms they exhibit the steadiness and precision of veterans, and in the silent manuel and bayonet drill their accuracy is really astonishing, considering the brief period in which they have been drilling. This company will take part in one of the entertainments soon to be given by the Jamesen Guards, when the public will have an opportunity to see that our mention is not at all exaggerated.

ACCIDENTS AT WINTERPORT. Yesterday forenoon a man named Daniel McCormick, in the employ of I. & C. H. Treat, at Winterport, fell from a pile of boards to the ground, breaking his thigh-bone and three of his fingers. He was promptly cared for, the fractured bones set, and he is now comfortable.

An elderly man named Thomas Morrisey, residing in Winterport, was chopping wood in his yard yesterday, when his axe caught on a clothes-line and came down on his forehead with great force, felling him to the ground and rendering him insensible for some time. He was resuscitated with great difficulty, but is now doing well.

DEPARTMENT ENCAMPMENT, G. A. R.—The Maine Central and P. S. & P. Railroads will furnish free return tickets to delegates and others attending the Department Encampment of the G. A. R., which commences at Masonic Temple this evening. The Grand Commander, R. B. Hall is also a delegate *ex officio*, and J. A. Dole is a member of the Council of Administration of the Department of Maine.

BIBLE SOCIETY ANNIVERSARY. The twenty-fifth anniversary of the Bangor Young Men's Bible Society will be held in Norombega Hall to-morrow (Sunday) evening, the exercises commencing at 7 o'clock. Rev. Messrs. Church, Field, Smyth, Marsh and Allen of this city, and Mr. Jacob Berry of Pittsfield will take part in the exercises. The last-named gentleman has been of late canvassing Somerset county, and will make some remarks in reference to the desirableness of Bible distribution throughout the country; and the Secretary, Mr. John H. Hayes, will make a report showing the work of the Society during the past year. The chorus class, under the direction of Mr. L. A. Torrens, will take part in the singing, opening with an anthem; the hymns, which have been printed for distribution in the hall, will be sung by the congregation, accompanied by a select orchestra led by Mr. M. H. Andrews. The annual collection will be taken, as usual.

MASONIC INSTALLATION. Our correspondent writes that on Thursday evening the officers of Piscataquis Royal Arch Chapter, and Mosaic Lodge, Nos. 62, of Dover and Foxcroft, were duly installed at Masonic Hall.

The officers of the Lodge were installed by the D. I. G. M.; E. A. Thompson, as follows: S. R. Jackson, W. M.; Wm. T. Elliot, S. W.; A. S. Davis, J. W.; E. B. Averill, Sec.; C. B. Kittredge, Treas.; T. P. Elliot, S. D.; G. G. Downing, J. D.; J. T. Arnold, S. S.; Albert Cass, J. S.; W. F. Sampson, Chap.; T. L. Jennison, Tyler; Wm. McComb, Marshal.

The officers of the Chapter were installed by R. W. E. B. Averill, as follows: W. Buck, H. P.; E. A. Thompson, K.; M. W. Mall, S.; Jame T. Roberts, C. of H.; W. F. Elliot, P. S.; H. A. Robinson, R. A. C.; D. E. Lowell, M. 3d V.; O. P. Martin, M. 2d V.; O. C. Gross M. 1st V.; T. L. Jennison, Sent.

The lady friends of the members were present and after the installation ceremonies a short time was spent in a social manner.

MR. TORRENS' CONCERT. *Mr. Editor:* On next Monday evening our citizens are to have a musical entertainment, under the direction of one of our own musical educators, that should be generally patronized. Aside from the fine talent enlisted for the occasion the inducement to encourage an enterprising and worthy teacher, whose labors are a necessity with us, and whose efforts, beyond the limit of the city and of the State, are helping our musical reputation, we believe will insure a full house. It is a common remark that some talent is overlooked, while pretenders from abroad are largely patronized. Although this is not exactly true, yet there is not always sufficient interest in home entertainments that are entitled to encouragement. We say not always, because of late years, when attention is called to such entertainments, the disposition to patronize them has improved. Mr. Torrens has provided for us a treat. We are informed that his chorus class has practiced diligently and successfully and will be listened to with great pleasure.—Mrs. Crowell and Mrs. Wasgatt are always attractive singers, Mrs. West of Boston, who as Kate Houston, was admired for her fine rendering, and loudly applauded in Norombega Hall two or three years ago, stands higher than ever. Mr. Packard, tenor, and Mr. Sprague, bass, are new and superior singers, as many of our people can attest, and Mrs. Daine is second to no pianist who plays before our audiences. It is hoped and believe that on Mr. Torrens' account, as well as for the pleasure in store, there will be a full house.

INVESTING MONEY.

If so, The 7 3-10 GOLD LOAN!

A Choice Investment Security!

We offer for sale at par and accrued interest, the

First Mortgage Land Grant Gold Bonds

OF THE

Northern Pacific

RAILROAD COMPANY.

These Bonds are payable in 1900-5 for 7 3-10 per cent. interest in GOLD, payable first of July and January; are FREE OF U. S. TAX; are receivable at 10 PER CENT PREMIUM for the Company's lands at the LOWEST CASH PRICE, and are issued in the following denominations: Coupon bonds, $100, $500 and $1,000. Registered bonds, $100, $500, and 1,000, $5,000 and $10 000.

The Company is allowed "to negotiate and procure a loan which shall not exceed Fifty Thousand Dollars, per mile," which is secured by a FIRST and ONLY MORTGAGE, "UPON THE RAILROAD, FRANCHISES, AND ALL THE LANDS AND PROPERTY, AND RIGHTS OF PROPERTY, REAL AND PERSONAL, NOW IN POSSESSION BY THE NORTHERN PACIFIC RAILROAD COMPANY, OR WHICH THE SAID COMPANY MAY HEREAFTER ACQUIRE," and THE TRUSTEES OF THE BONDS ARE OBLIGED TO HOLD 25,000 ACRES OF AVERAGE LAND AS SECURITY FOR EVERY $50,000 OF BONDS ISSUED.

The sales of all lands, "AT SUCH PRICES AS APPROVED BY THE SAID TRUSTEES," are set apart to redeem the Bonds, or by the def nite terms of the mortgage, "THE PROCEEDS OF ALL SALES OF LAND, WHETHER IN CASH, BONDS, COUPONS OR OTHER SECURITIES, SHALL BE DEPOSITED WITH THE TRUSTEES;" also, "ALL MONEYS IN THE HANDS OF THE TRUSTEES FOR LANDS SOLD, SHALL BE INVESTED BY THEM, IN THE FIRST MORTGAGE BONDS OF THE COMPANY SECURED BY THIS MORTGAGE, WHEN SAID BONDS CAN BE PURCHASED AT A SUM NOT EXCEEDING 110 CENTS ON THE DOLLAR AND ACCRUED INTEREST."

Although the Northern Pacific Railroad Company intend to sell the same quality of lands at prices BELOW OTHER GRANTS, to induce rapid settlement, still the promised working of the above provision is apparent, for the sales of land up to November 1st, exceeded 2,000,000 acres at an average price upwards of $8 per acre, EQUAL TO 1,300,000, OR MORE THAN 10 PER CENT ON $11,500,000, WHICH WAS THE TOTAL AMOUNT OF BONDS SOLD TO THAT DATE; still his 2,000,000 acres of land is NOT QUITE ONE-SIXTEENTH PART OF THE LAND GRANT IN MINNESOTA ALONE.

Below we give the average price per acre of the sales of the Land Grants on different roads, the same idea may be borne for the immense value of the 60,000,000 acres granted to the Northern Pacific Railroad Company, for there can be no doubt that the average price per acre of its land sales will be much above the general average price these lands

The CHARACTER of the Land Grant of the Northern Pacific Railroad Company, as a whole, is readily acknowledged by all persons acquainted with the different Grants, to be SUPERIOR TO THAT OF ANY OTHER ROAD; but even if the average price per acre of its land sales should not be above the lowest average of all the land grants which is but $3.07 on the Kansas Pacific Road, still at this low figure for the 60,000 acres held to redeem each $50,000 of bonds, there would be a surplus of $26,750 over the amount of bonds that can be issued on each mile of the Northern Pacific Railroad.

During the month of December the Northern Pacific Railroad was opened for passengers and freight to the Red River of the North, the eastern boundary of Dakota Territory—this, with the completed road on the Pacific slope, and the St. Paul and Pacific branches of 288 miles, make nearly 600 miles of road in operation at the close of 1871.

As the U. S. Government is now calling in the Five-Twenties, holders of these can convert them into Northern Pacific Bonds, and thereby INCREASE their INCOME MORE THAN 33 1-3 PER CENT. At the present time a good proportion of the sales of N. P. Bonds are by the conversion of Five-Twenties, and we notice that the Boston Journal in its monetary article of Jan. 11th, says: "Holders of Five-Twenties of 1862 are either realizing upon them, or exchanging them into other issues such as into railroad bonds—the Northern Pacific Seven-Thirties are favorites for reinvestment."

The Chicago disaster fully demonstrated that a First Mortgage Bond on any Trunk Line of rail road is the safest and least fluctuating security known.

DAME NATURE.

By Miss H. B. Hodson.

Men say she is a proper girl, warm and fair,
Perfect in beauty, and shepherded with calm;
Her cap and dress, frost-beaten and unaware
Of disregard of fashion's haughty palm.

I know her as a kindly, queen of dame,
Bought and sold among through all the year;
Poor of content, and all change the same,
Full of contempt, and all cheer great good cheer.

No goddess, lofty in dignity
But busy, happy, formally with all most.
Wise and boisterous, ingenuity free.
Telling of what is all be and what has been.

She has unnumbered secrets in her care.
She screens her mysteries with sound and sight;
Yet half reveals their meaning every where,
And hints it in the sussets every night.

She is a tender mother in the spring;
She puts each little leaf and blade of grass
She teaches strong and every one to sing,
And coaxes the whole with blessings as they pass.

And not less tender when the weary year
Lies down and dies amid the withered leaves,
She hath no more the tenderness held so dear,
Yet keeps her, for patience, while she grieves.

Daily, in trustful, kind simplicity,
She shows to men her beauty's excellence,
Willing that every human soul should see
Upon her happy face God's evidence.

Alike to poor and rich, to dull and wise,
She gives her bounty, her sunshine, and her breeze.
In every mind she hides some rare surprise,
And leaves no spot unloved in lands or seas.

Would that we all were nature's equal men,
Made room for all in her enduring capacity.
Content to live without pride and pen,
God's message, through our lives, in fact and fact.

ARE ENDORSED AND PRESCRIBED BY MORE leading Physicians than any other Tonic now in use. They are

A SURE PREVENTIVE

For Fever and Ague, Intermittents, Biliousness and all disorders arising from malarious causes. They are highly recommended as an ANTI-DYSPEPTIC. The most inveterate cases of DYSPEPSIA or INDIGESTION are invariably relieved. As an APPETIZER, INVIGORATOR and RESTORATIVE, this Vegetable PREPARATION has no equal, no "single instance, failed in producing the most happy results. The aged are particularly invited to give it a trial.

BEING PURELY VEGETABLE,

Strengthening the body, invigorating the mind, and giving tone and vitality to the whole system, it is peculiarly adapted to the weak and nervous. Its PURE VEGETABLE INGREDIENTS are compounded with the greatest care, and in such a manner as to preserve the full medicinal virtues of the tonic stimulant and alterative properties, in a state of concentration, so that while it is powerful in its effects, it contains no alcohol, and may be taken by the most delicate with perfect safety. In fact, no person can take these BITTERS according to the printed directions, and remain long unwell, provided their bones are not entirely destroyed, or the vital organs wasted beyond the point where medicine can do good. Nor can any one, who is exposed to any kind of malarious influence, escape attack, if they neglect to use this great protective. As a BLOOD PURIFIER, it is unsurpassed, as it eradicates every impurity from the system, and leads to the deposition of healthy flesh. For all diseases of the

KIDNEYS, LIVER, STOMACH, BOWELS, BLOOD, NERVES, SKIN, &c.,

This BITTERS has proved itself a most valuable remedy. It is the best blood purifier and most reliable tonic in use, and is recommended and prescribed by the most eminent physicians and clergymen throughout the country.

Hundreds of Certificates

Have been received by the proprietors, from persons who have been long afflicted with various diseases, and who had become discouraged in finding no relief, all of whom concur in pronouncing this the most wonderful medicine ever discovered. Many of the most eminent physicians use it in their practice with unfailing success.
